To Arizona ACC Commissioners and Chairman

With more and more Americans losing their homes I am just speechless on why the Arizona Corporate Commission would even consider APS's Decoupling scheme.

I manage various Homeowners Associations in the West Valley. Your average Arizonan are struggling to keep their house, put food on the table for their family and maintain their A/C unit at a manageable level so they won't bake in their house. Board of Directors are downsizing their budget in order to avoid assessment increases.

This is not the direction that the commission should take in these economic hard times. It this part Obamas "Energy costs will necessarily sky rocket" agenda????

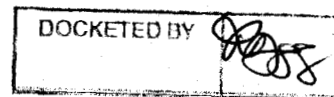

NO to Decoupling. This is just basic common sense!

Please don't hesitate to contact me if you have any further questions.

Arizona Corporate Commission

I have two sons that live with me, one is unable to find a job, the other just lost his a couple of weeks ago. The small business he was working for has closed its doors.

Now I see this! You are planning to raise my already HIGH APS bill. My A/C is set at 81 degrees every day because I can barely afford to pay my APS bill. God forbid I am late one month, I get a disconnect notice with more fees. We try not to walk fast as not to sweat.

To add insult to injury you granted APS the authority to install Smart meters which emits Microwave RADIATION 6 feet from my bedroom window WITHOUT MY PERMISSION. I have have had headaches everyday for over one year, and yes I have NO health insurance.

I pay my taxes, I pay my bills. I do not get any government handout (no food stamps, no ACCHS, no disability checks)
BUT ENOUGH IS ENOUGH!

I do not want any more funding schemes on our utility bills and I want those that are there REVERSED...Now!

NO DECOUPLING SCHEME. NO MORE RATE HIKES. NO MORE SUBSIDIZING SOLAR PROJECTS. AND NO MORE FOREIGN COMPANIES SETTING UP SHOP IN ARIZONA!
